EXISTING TREE to be retained
ACCENT TREES
FEATURE TREES
SHADE TREES
FRUIT TREE

GARDEN BEDS
LAWN AREA
ARTIFICIAL LAWN
COLOURED CONCRETE
EXPOSED AGGREGATE PAVING
COLOURED RESURFACING TO EXISTING ASPHALT
GREEN WALL
SOFTFALL
TILE BANDING
REMovable BOLLARDS
SEATS
PLANTER WALL
BOLLARDS

LEGEND

RAISED PLANTER.
ARTIFICIAL GRASS.
REMOVABLE BOLLARDS.
SEATING ALCOVES.
EXISTING TREES to be retained.
EXISTING DRIVEWAY.
CURVILINEAR BANDING.
REMOVABLE BOLLARDS.
SHADE TREES.
EXISTING RAMP.
EXISTING STEPS.
STEPS.
SEATING ALCOVES.
SHADE UMBRELLA.
TERRACES/AMPITHEATRE.

THE TERRACES
Flat outdoor courtyards to be constructed where the roadway currently is. The courtyards will serve a variety of functions such as outdoor seating areas, teaching areas, play spaces & a small amphitheatre.

COLOURED RESURFACING.

Fruit Trees.

Artificial Grass.

THE PLAYGROUND
New playground consisting of some fixed play equipment as well as some natural play elements backed by a forest of trees to screen & soften views into neighbouring properties as well as existing concrete retaining walls.

THE CENTRAL COURTYARD
The central courtyard is to be reworked using a simple but strong patterning of coloured resurfacing that unifies the space as a warm & inviting outdoor plaza, rather than a bitumen carpark. Primarily to be used as a seating area, the Courtyard will also be graded in such a manner to facilitate handball games. A continuous band of plant will run from the Central courtyard to the adjoining play & produce garden to visually link the two spaces as one.

THE TERRACES
Flat outdoor courtyards to be constructed where the roadway currently is. The courtyards will serve a variety of functions such as outdoor seating areas, teaching areas, play spaces & a small amphitheatre.

PLAN

STREET FRONTAGE LANDSCAPING
The design intent is to green & soften the front of the school to provide a cooler & more inviting entry point into the School. Shade tree planting & green walls will provide a softer environment while accent trees will be used to highlight entry points. Seating alcoves will form waiting areas & a new signage wall will further improve the street appeal of the School.
